La sfida scientifica: il cambiamento del sistema fisico

The effect of changes in temperature distribution on extremes

Different changes in temperature distributions between present and future climate and their effects on extreme values of the distributions

SREX, 2011

effects of a simple shift of the entire distribution toward a warmer climate

effects of an increase in temperature variability with no shift in the mean

effects of an altered shape of the distribution

Climate Change Projections in the Mediterranean region

Athens Case Study: heat-waves

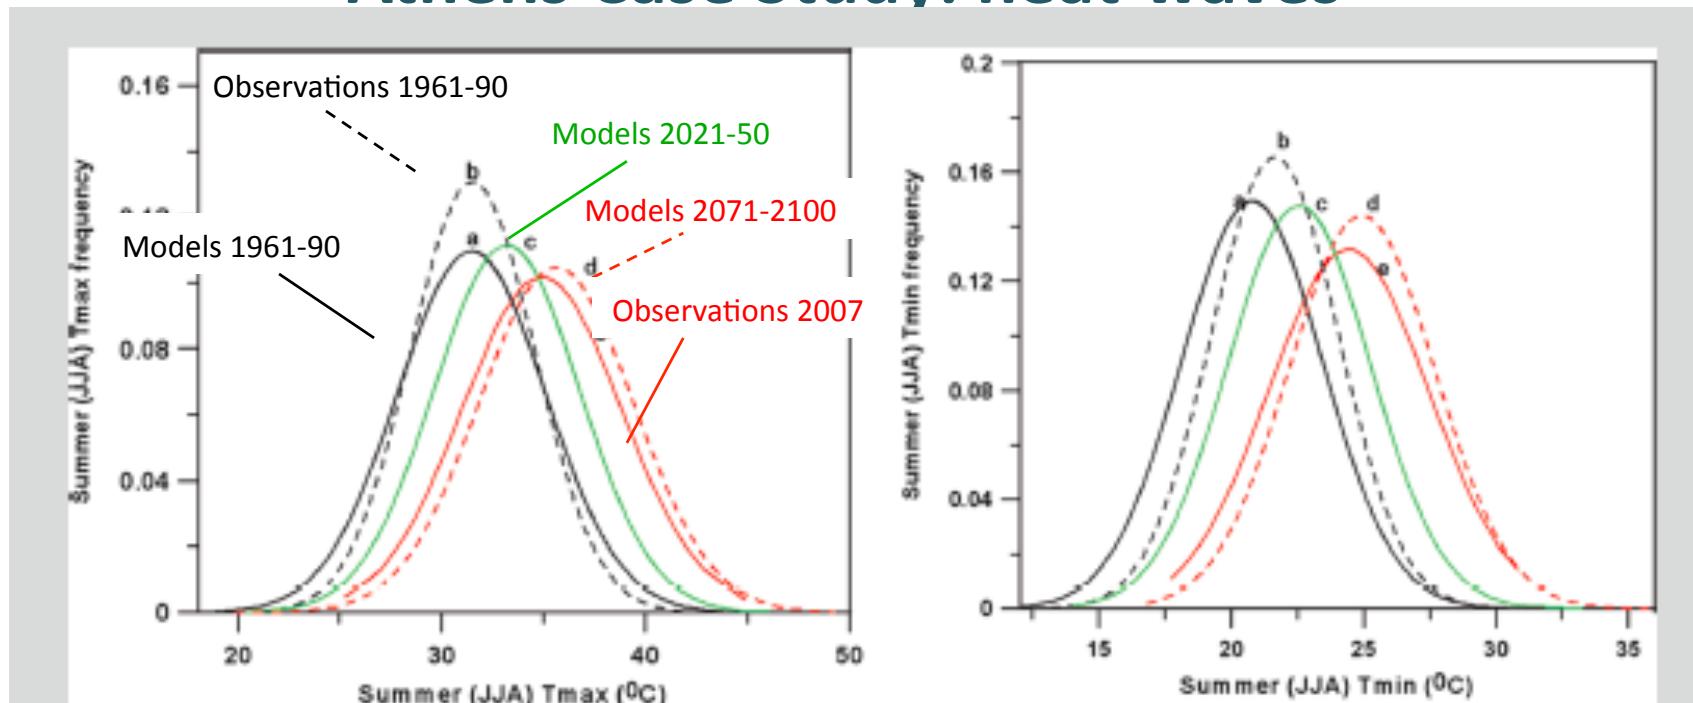

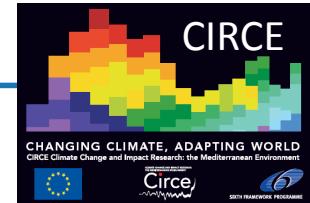

Fig. 5.5 Probability density function (pdf) of Gaussian distributions fitted to Athens JJA maximum (left) and minimum (right) temperature for the following cases: (a – solid black) model output for 1961–1990, (b – dashed black) NOA observations for 1961–1990 (c – green) 2021–2050 model simulations, (d – dashed red) 2071–2100 model simulations and (e – solid red) summer 2007 (NOA observations)

La sfida scientifica: il cambiamento del sistema fisico

Climate Change Projections in the Mediterranean region

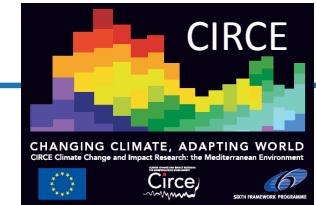

Detection of the climate change signal on specific areas
representative of the Mediterranean environment

	Observed			Projected (2021–2050)		
	Mean T	High T	Mean P	Mean T	High T	Mean P
Athens	↑	↑	(↑)	↑	↑	↓
Alexandria	↑	↑	(↑)	↑	↑	↔
Beirut	↑	↑	↔	↑	↑	↓
Tuscany	↑	↑	↓	↑	↑	↓
Apulia	↑	↑	↓	↑	↑	↓
Judean Foothills	↑	↑	↔	↑	↑	(↓)
Tel Hadya	↑	—	↔	↑	↑	↓
Gulf of Valencia	↑	—	↑/↔	↑	↑	↓
Gulf of Oran	↑	—	↓	↑	↑	↓
Gulf of Gabès	↑	↑	↔	↑	↑	↓
West Nile Delta	↑	↑	(↑)	↑	↑	↔

↑: observed/projected increase, ↓: observed/projected decrease, ↔: no trend/change identified.
Brackets () indicate very small/uncertain trends/changes. —: not analyzed

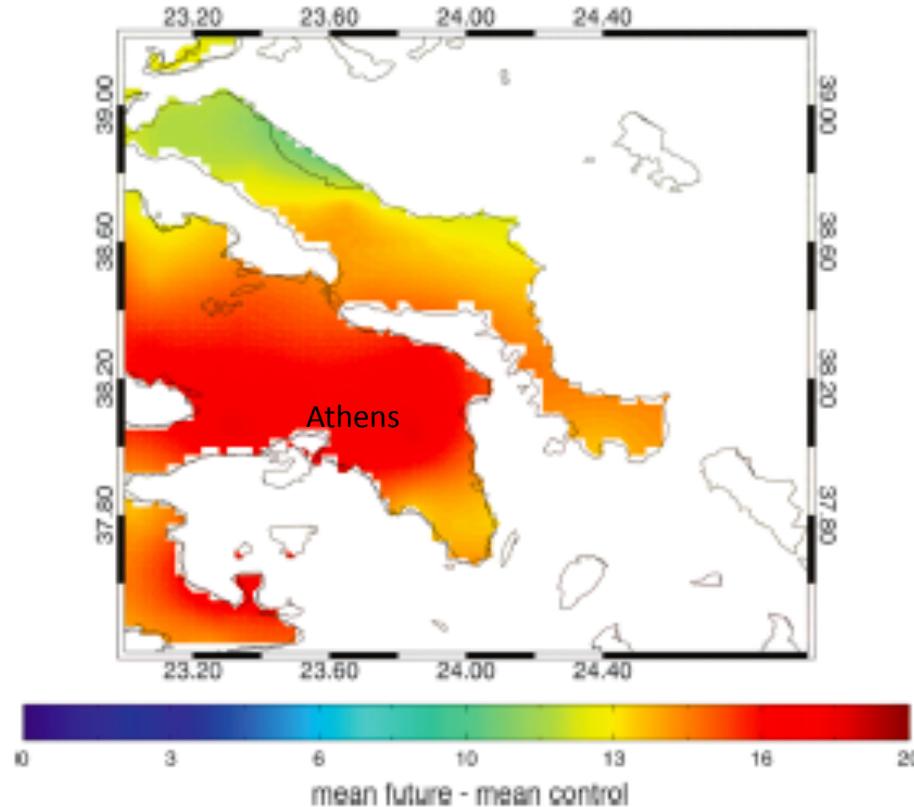

La sfida socio-economica: gli impatti

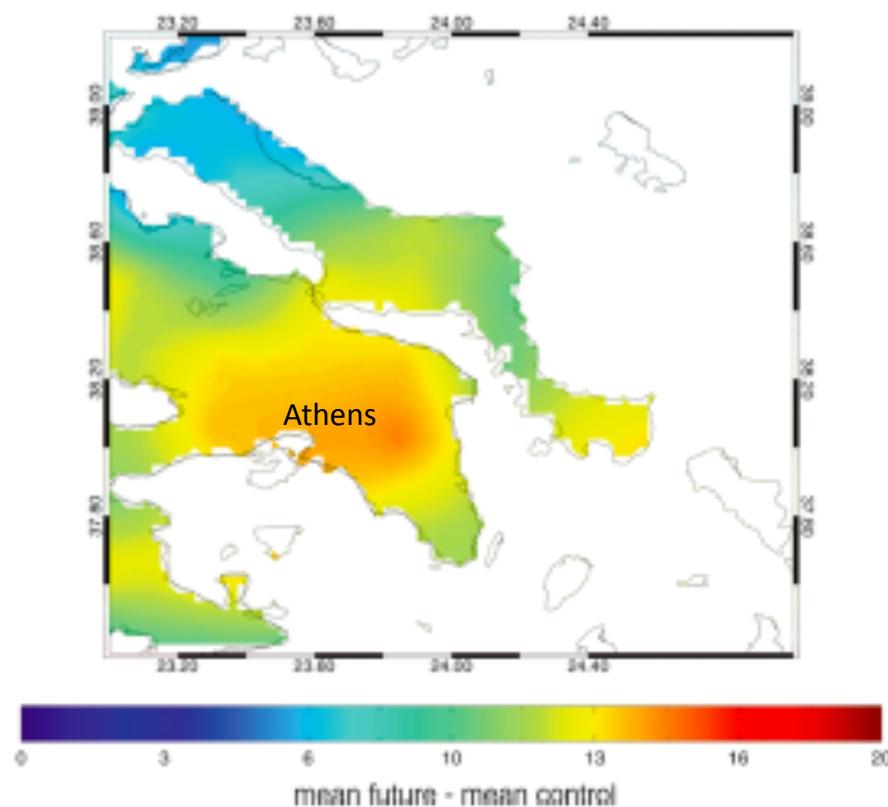

Climate Change Projections in the Mediterranean region

projected changes (2021-2050) – (1961-1990)
in the number of days with fire risk

Num. of days with high fire risk (FWI > 15)

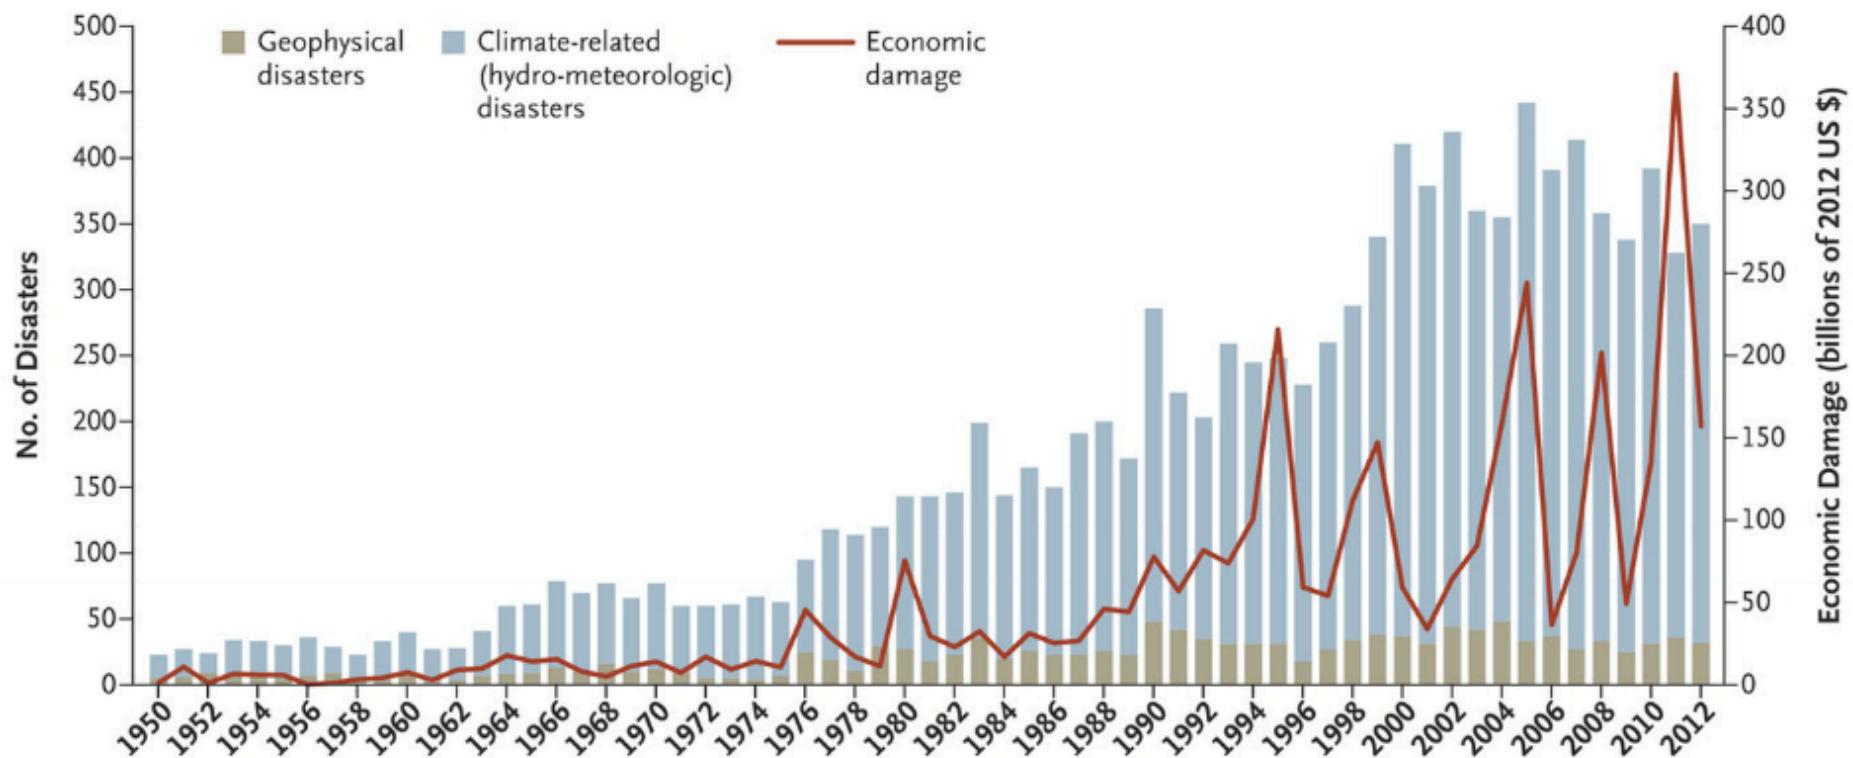

Num. of days with extreme fire risk (FWI > 30)

La sfida socio-economica: gli impatti

Andamento dei disastri naturali e relativi costi negli ultimi 60 anni
