## PARCO NAZIONALE APPENNINO TOSCO EMILIANO - GENERAL TIMELINE

---

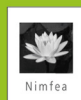

CEETO Deliverable D.T2.2.2

Workplan for the sustainable tourism planning  
process

---

Version 1.0

11 2018

## Introduction

Within the deliverable D.T2.2.2 each pilot area has to build a workplan for the sustainable tourism planning process. The workplan is the tool that sets the planning goals for the next period and the relevant management and monitoring tools to be put in place in pilot action.

## Workplan

The Appennino Tosco Emiliano National Park was awarded with the ECST in 2014 and in 2015 it became a part of the UNESCO Man and Biosphere Reserve Appennino Tosco Emiliano which includes a larger area if compared with the one of the National Park.

At the moment we are renovating the ECST and creating the action plan of our Biosphere Reserve.

YEAR	2019	2020	2021	2022	2023
<b>Action</b>
