

## **Life Primes - National Networking Meeting**

**18th June 2018**

### **Innovation in flood risk management: best practices, participation and communication**

**Rooms B, C e D Third Tower Emilia-Romagna Region**

**Viale della Fiera, 8 - Bologna**

Emilia-Romagna Region is co-organizing the National Networking Meeting of Life Primes Project ([www.lifeprimes.eu](http://www.lifeprimes.eu)), with Italian and international experts from River Basin Authorities, Civil Protection Department, Italian Universities.

The meeting has the aim to discuss the topic of building resilient communities through their full engagement and proactive participation in early warning operations and flood risk prevention, in the frame of Flood Directive implementation.

In particular, during the morning session of the Meeting the focus will be on policies, strategies and on the most innovative tools, actions and approaches at Italian and European level, also in relation with climate change.

In the afternoon, instead, experts will talk about the experiences and tools of similar Life and not Life projects and about the homogenisation and integration of monitoring and warning systems in Italian Regions.

#### **Moring Session\* (9.30 – 13.30)**

- |       |   |
